1. **Purpose:** The purpose of this SOP is to define a standardized and controlled process for receiving, storing, issuing, and tracking **Sample** and **FOC (Free of Cost)** materials in the store to ensure proper documentation, accountability, and traceability.

2. **Scope** This SOP applies to all Sample and FOC materials received, stored, consumed, or dispatched from the organization's warehouse/store.

3. **Process Owner: –**

3.1 Stores Department:

- Receive materials with proper documentation
- Create DMRR/SCM portal entry for tracking
- Apply DMR No., store, and maintain records
- Issue materials to respective user and take the signature in Sample register

3.2 Purchase Department:

- Inform stores in advance about expected Sample/FOC materials
- Ensure vendor submits necessary documents (DC)

3.3 Quality Department:

- Inspect and approve materials wherever required

3.4 User Department:

- Get material from store and acknowledge in sample register for sample/FOC

CONTROLLED

4. Procedure:

4.1 Material Receipt:

a) Vendor delivers sample/FOC materials along with:

- Delivery Challan / Letter
- Packing list (if applicable)

b) Stores verify:

- Material description
- Quantity
- Condition of material
- Document correctness

c) Stores inform to the Purchase/Quality team for verification if required.

d) Stores create Sample/FOC Material Receipt Entry in DMR Register, SCM Portal/manual sample register:

- Date
- DMR number & Date
- Reference document no.
- Vendor name
- Item name
- Quantity received
- Purpose
- Requested by

4.2 Storage & Identification:

a) Materials must be stored in a designated Sample/FOC area.

b) Ensure segregation from regular inventory.

c) Apply identification tags containing:

- DMRR No.
- Material name
- Type: Sample / FOC
- Vendor name

4.3 Material Issue:

1. User department raises a Sample/FOC Material Request Note
2. Stores issues material and get acknowledgement in sample register
3. Stores update the Sample/FOC Issue Register:
    - Date
    - Issued to (Department/User ID)
    - Signature of receiver
    - Quantity issue

4.4 Record Keeping

The following records must be maintained for a minimum of 3 years:

- Sample/FOC Receipt Register
- Sample/FOC Issue Register
- Vendor challans/emails

All records should be accessible during audits.

5. Audit & Review

- Internal audit team will periodically audit all Sample/FOC material records.
- Store in-charge must ensure accuracy and availability of documentation.
